(D) Richten Sie die Türe **(c)** senkrecht aus und schieben Sie das oben einzukürzende Kompensationsprofil **(b)** an die Wand, so dass die Fuge zwischen Wand und Türe mit der Dichtlippe innen gleichmäßig geschlossen wird. Fixieren Sie dann mit den Scharnieren **(a)**.

(GB) Set up the door **(c)** vertically. After shortening the top of the compensation gasket **(b)** push it against the wall so that the gap between wall and door is closed inside equally by the rubber strip. Fix with the hinges **(a)**.

(I) Porre la porta **(c)** in maniera verticale e spingere poi il profilo di compensazione **(b)** (da accorciare sopra) verso la parete, in modo che chiuda dentro, attraverso la guarnizione, le fughe venutesi a creare tra il muro e la porta. Fissare poi il tutto con le cerniere **(a)**.

(F) Positionnez la porte **(c)** aplomb et placez la plinthe de compensation **(b)** (auparavant coupée en haut) sur le mur de telle façon que l'espace entre le mur et la porte soit recouvert au dedans par la lèvre d'étanchéité. Fixez les charnières **(a)**.
