**D** Richten Sie der Flügel **c** senkrecht aus und schieben Sie das Kompensationsprofil **b** an die Wand, so dass die Fuge zwischen Wand und Tür mit der Dichtlippe innen gleichmäßig geschlossen wird. Fixieren Sie dann mit den Scharnieren **aa**.

**GB** Set up the panel **c** vertically. Push the compensation gasket **b** against the wall so that the gap between wall and door is closed inside equally by the rubber strip. Fix with the hinges **aa**.

**I** Porre la anta **c** in maniera verticale e spingere poi il profilo di compensazione **b** verso la parete, in modo che chiuda dentro, attraverso la garnizione, le fughe venutesi a creare tra il muro e la porta. Fissare poi il tutto con le cerniere **aa**.

**F** Positionnez le panneau **c** à plomb et placez la plinthe de compensation **b** sur le mur de telle façon que l'espace entre le mur et la porte soit recouvert au dedans par la lèvre d'étanchéité. Fixez les charnières **aa**.
